Before hanging check that rolls are undamaged, that numbers and letters are the same for each roll of this design and that all colours match. Return any defective rolls with its label to where it was purchased. Take care when papering around electric switches and power points. Do not allow moisture to drip onto electrical contacts.

Preparation

Prepare wall by removing all traces of dirt, old wallpaper or loose paint. Do not hang wallcoverings on any wall with a history of damp. Fill any cracks and allow to dry before hanging. Absorbent surfaces should be appropriately sealed using a diluted wallpaper adhesive. Sealed walls i.e. painted should be given to painting them with an appropriate colourwash. Alternatively we recommend walls to be lined horizontally using a good quality lining paper. Allow this to dry fully.

Hanging

We recommend the use of a light ready made adhesive. Make sure edges are well pasted and fold paper, adhesive side in and roll. Allow wallpaper to soak until pliable, normally this will take 5-6 minutes. Do not overlap, use butt joints. Do not get paste onto wallcovering face. Should this occur carefully remove any excess paste with a damp clean sponge before it all dries. After hanging 2 or 3 lengths. Inspect the results to ensure that there is no shading or other fault. NO CLAIMS FOR HANGING COSTS WILL BE ALLOWED. FOR GOODS HUNG IN EXCESS OF ONE ROLL.
